Professional Summary

B.Tech Computer Science Engineering student with internship experience in Frontend Development and Core Java application development. Skilled in React.js, JavaScript, HTML, CSS, Core Java, JDBC, MySQL, DAO Pattern, OOP, DSA, DBMS, REST APIs and Git. Seeking Software Development, Java Developer and Frontend Developer opportunities.

Education

Jodhpur Institute of Engineering & Technology, Jodhpur
B.Tech in Computer Science Engineering

2024 – 2028
CGPA: 9.3/10

Experience

Frontend Development Intern | Nuvoco Vistas Corp. Ltd.

May 2026 – Jun. 2026
Mumbai, Maharashtra

- Developed responsive UI components using **React.js**, **JavaScript**, **HTML**, and **CSS**.
- Contributed to the development of a **Fire Safety Management System**.
- Built reusable React components and improved application responsiveness.
- Implemented user interfaces for managing fire safety information.
- Used **Git** and **GitHub** for version control and collaborative development.

Core Java Intern | Sunbeam Infotech

Jun. 2026 – Jul. 2026
Pune, Maharashtra

- Developed a **Quiz Management System** using **Core Java**, **JDBC**, **MySQL**, **Java Swing**, and **DAO Pattern**.
- Implemented authentication, quiz management, score calculation, and result management.
- Applied Object-Oriented Programming, Collections Framework, and Exception Handling.
- Used **JDBC**, **PreparedStatement**, and **MySQL** for persistent database operations.
- Managed source code using **Git** and **GitHub**.

Projects

Quiz Management System

Java, JDBC, MySQL, Java Swing, DAO Pattern

- Built role-based quiz application with Admin and Student modules.

Fire Safety Management System

React.js, JavaScript, HTML, CSS

- Developed reusable React components and responsive interfaces.

Nav Drishti App

Flask, REST APIs

- Flask-based object detection application using REST APIs.

City Pulse Web Application

React.js

- Built responsive React.js web application.

Gas Leak Detection System

Arduino, MQ-5 Sensor

- Arduino-based gas detection using MQ-5 sensor and alert system.

Personal Portfolio [View Portfolio](#)

Next.js, React.js, JavaScript, Tailwind CSS, HTML, CSS

- Built a responsive developer portfolio showcasing my skills, projects, experience and education.

Technical Skills

Programming Languages: Java, JavaScript, Python, C, SQL

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, JavaScript, Responsive Web Design

Backend Development: Core Java, JDBC, Node.js (Learning), Flask, FastAPI (Basic), REST APIs, JSON

Java Technologies: Core Java, JDBC, Java Swing, Collections Framework, Exception Handling, Multithreading Basics, DAO Pattern

Databases: MySQL, SQL, CRUD Operations, Database Design

Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

Developer Tools: Git, GitHub, VS Code, Spring Tools for Eclipse, MySQL Workbench, Arduino IDE

AI & Generative AI: Generative AI, ChatGPT, Claude AI, Google Gemini, Google AI Studio, Gamma AI, Antigravity, Cursor, Replit AI, Adobe AI Tools, GitHub Copilot, Canva

Soft Skills

Problem Solving, Team Collaboration, Communication, Adaptability, Quick Learning
