## Professional Summary

B.Tech Computer Science Engineering student with internship experience in Frontend Development and Core Java application development. Skilled in React.js, JavaScript, HTML, CSS, Core Java, JDBC, MySQL, DAO Pattern, OOP, DSA, DBMS, REST APIs and Git. Seeking Software Development, Java Developer and Frontend Developer opportunities.

## Education

**Jodhpur Institute of Engineering & Technology, Jodhpur**

**Aug. 2024 – Jan. 2028**

*B.Tech in Computer Science Engineering*

*CGPA: 9.2/10*

## Experience

**Frontend Development Intern – Nuvoco Vistas Corp. Ltd.**

**May 2026 – Jun. 2026**

*Mumbai, Maharashtra*

- Developed responsive UI components using **React.js**, **JavaScript**, **HTML** and **CSS**.
- Contributed to the development of a **Fire Safety Management System**.
- Built reusable React components and improved application responsiveness.
- Implemented user interfaces for managing fire safety information.
- Used **Git** and **GitHub** for version control and collaborative development.

**Core Java Intern – Sunbeam Infotech**

**Jun. 2026 – Jul. 2026**

*Pune, Maharashtra*

- Developed a **Quiz Management System** using **Core Java**, **JDBC**, **MySQL**, **Java Swing** and **DAO Pattern**.
- Implemented authentication, quiz management, score calculation and result management.
- Applied Object-Oriented Programming, Collections Framework and Exception Handling.
- Used **JDBC**, **PreparedStatement** and **MySQL** for persistent database operations.
- Managed source code using **Git** and **GitHub**.

## Projects

**Quiz Management System**

**Java, JDBC, MySQL, Java Swing, DAO Pattern**

- Built role-based quiz application with Admin and Student modules.

**Fire Safety Management System**

**React.js, JavaScript, HTML, CSS**

- Developed reusable React components and responsive interfaces.

**Nav Drishti App**

**Flask, REST APIs**

- Flask-based object detection application using REST APIs.

**City Pulse Web Application**

**React.js**

- Built responsive React.js web application.

**Gas Leak Detection System**

**Arduino, MQ-5 Sensor**

- Arduino-based gas detection using MQ-5 sensor and alert system.

## Technical Skills

**Programming Languages:** Java, JavaScript, Python, C, SQL

**Frontend Development:** React.js, HTML5, CSS3, JavaScript, Responsive Web Design

**Backend Development:** Core Java, JDBC, Node.js (Learning), Flask, FastAPI (Basic), REST APIs, JSON

**Java Technologies:** Core Java, JDBC, Java Swing, Collections Framework, Exception Handling, Multithreading Basics, DAO Pattern

**Databases:** MySQL, SQL, CRUD Operations, Database Design

**Computer Science Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

**Developer Tools:** Git, GitHub, VS Code, Spring Tools for Eclipse, MySQL Workbench, Arduino IDE

## Soft Skills

Problem Solving, Team Collaboration, Communication, Adaptability, Quick Learning
